Project

1. Building a social networking web app
(<https://github.com/kumar80/Social>)
 - 1.1. Library and frameworks used - Firebase, nodejs, Express, busboy
 - 1.2. Features - Post (image/text), like a post, Comment, user notifications, Login/Signup route, User profile
2. Handle uploading connection problems using Blob.slice() method, OR cut file to plenty of small parts and send each part separately in parallel and probably improve uploading speed along with resume. (Ongoing)
